The money is less than what I was previously earning. The company is now cutting expenses and many people have lost their jobs. They have terminated one of my colleagues and my working hours</p>	<p><b>3) Solution found:</b></p> <p>It's all started when one morning in 15 Aug 2000. I was delivering a package to a client who invited me to this business opportunity. Then I ended up being blessed by joining this opportunity that is a big solution for the challenges that I am going through</p>	<p><b>4) Where do you see yourself in the future</b></p> <p>Now I am living the lifestyle that I desire by being:</p> <p>1. I am my own boss; I choose my own hours to work when I want and enjoying what I am doing.</p> <p>2. Living a life of total financial freedom, and don't have to worry about not having money to support my family and provided them with a lucrative lifestyle</p>

<p>have been increased from 8 hours to 12 hours a day with no extra pay since now I am doing two jobs, replacing the guy who's been downsized.</p> <p>2. I also hate the politics involved in moving ahead in the company, which does not agree with my personality.</p>		<p>2. I live a lifestyle of total independence I don't have to get into politics. I choose the people I like to work with and enjoy what I am doing I am enjoying the way of life I am living, getting rewarded financially and exponentially for my efforts by helping others reach success.</p>
